

C.A.S.E. INDUSTRY

Your C.A.S.E. needs rely on high quality and consistency.

When it comes to the C.A.S.E. industry, ARP offers solutions that extend beyond simply materials and compounds. Our expertise means we also help you identify and resolve process and product deficiencies, saving you precious time and money by simplifying your approach to sourcing the right materials.

Excellent flow and coating properties

Great adhesion to metals

Wide range of viscosities available

ARP technical staff has over 80 years of experience in the rubber and plastics industries. We round out our offerings with a dedicated customer service department who are constantly striving to provide the best solutions possible to each and every customer. ARP Materials empowers customers and vendors to develop, improve and explore their own business opportunities by providing proactive solutions that simplify your supply chain.
