ENERGY THE ARP SOLUTION

WHO WE ARE

We are a full-service, raw material distribution company serving the rubber and plastic industry. ARP offers solutions that extend beyond raw materials. Our technical staff can assist with formulating compounds and troubleshooting processes, saving you time and money. Simplify your approach to sourcing and choose ARP Materials, an ISO 9001:2015 certified distributor.

WHAT WE BRING

ARP technical staff has over 80 years of combined experience in the rubber and plastics industry. Our dedicated customer service and operations team work closely with our customers ensuring they are well informed of their order status. With eleven warehouses, we have material conveniently located across the US and Canada. This allows material to be available when and where you need it.
